RE: MOD068561562

Dear Mr. Turner:

Thank you for your clarification of your status in the Federal Resource Conservation and Recovery Act (RCRA) program.

Based on your annual report and our telephone conversation, we are changing your status to non-regulated under the Federal RCRA system. Your identification number is being cancelled.

As a distribution warehouse which does not generate hazardous waste, your facility would not be regulated under RCRA unless a product spill should occur. The resulting waste, if listed in 40 CFR Part 261, could become regulated as part of the clean-up process. If this should occur, it will be necessary to telephone us at 816-374-6534 to request a temporary identification number to allow the spill to be handled. If you have questions, please call Mrs. Betti Harris of my staff at the above number.

The action described in this letter pertains only to the Federal RCRA system and does not dismiss you from compliance with the Missouri Solid and Hazardous Waste Laws and Regulations, 260.200-260.240 RSMo and 260.350-260.430 RSMo, respectively. If you have any questions concerning this, please contact the Waste Management Program of the Missouri Department of Natural Resources at 314-751-3241.

Sincerely yours,

Robert L. Morby
Chief, Waste Management Branch
Air and Waste Management Division

cc: Dr. David Bedan, Director
Waste Management Program, MDNR
